

BISLEY

MultiDrawer

MultiDrawer

MultiDrawers are as iconic as they are versatile. Originally designed in 1958 to be a desk-side filing cabinet, they have since become a design classic – they are even ranged by the Museum of Modern Art in New York. Made from steel and powder coated with a highly durable smooth finish, MultiDrawers are not only the perfect solution for the home office but any other room in the house; in the bedroom for make-up and jewellery, in the bathroom for cosmetic items or in the kitchen for herbs and spices. MultiDrawers are the ultimate storage solution – compact, robust and built to last.

A classic storage solution that keeps any room free of unwanted clutter.

Available in a selection of size and colour options to suit all needs.

With easy sliding, removable drawers.

Additional tray inserts allow for greater organisation of small parts (available separately).

Label holder inserts included.

Made in the UK.

Desk Filing

Desk Filing

Bisley's **Desk Filing** range is an update on a classic, offering maximum versatility within a lightweight design. With a shallower profile and a choice of filing and stationery drawer combinations, the Desk Filing range slides neatly under your worktop. Alternatively, using two units together, they can support a worktop to create a desk in its own right. Made from steel and powder coated with a highly durable smooth finish, Desk Filing cabinets are the perfect solution for the home-office.

Desk Filers are a versatile storage solution for any busy working environment.

Available with either a classic front or flush front, two filing drawers or a mix of both stationery and filing drawers.

Lockable drawers provide complete security for important documents.

Designed with a shallower profile to fit under most desks.
